

We are excited to announce the upcoming international conference “Heart Failure Phenotypes: Prevent, Protect, Predict”, which will take place from November 4<sup>th</sup>-6<sup>th</sup> in Berlin. This conference will bring together leading experts in cardiology to discuss the latest research, clinical advancements, and innovative approaches to understanding, preventing, and treating HFpEF.

Join us for an inspiring line-up of presentations, including Keynote speakers as

- **Joseph A. Hill, MD, PhD** from UT Southwestern Medical Center
- **Sanjiv J. Shah, MD** from Northwestern University

This is your chance to dive deep into the latest in HFpEF care, from emerging therapies and innovative diagnostic tools to the critical role of comorbidities in disease progression. Whether you're a clinician, researcher, or healthcare professional, this conference promises invaluable insights and networking with peers who share your passion for cardiovascular health.

Seats are limited, and registration will be opening soon! Be sure to register early to secure your place at this highly anticipated event.

You'll also have the exciting opportunity to showcase your own work through abstract submissions. A limited number of abstracts will be selected for poster presentations, so we encourage early submission.

For any questions regarding the conference, registration, or our collaborative research center on HFpEF, feel free to contact us at [crc1470@charite.de](mailto:crc1470@charite.de) or visit our website: [sfb1470.charite.de](http://sfb1470.charite.de)

We can't wait to see you there!

Warm regards,

**Michael Gotthardt & Gabriele Schiattarella**
